

SLC-FSDO FAASTeam presents:

Backcountry Survival after an Emergency Landing

An interactive discussion about search and rescue and backcountry survival with a special focus on aviation related incidents. Will an ELT really help someone find me? What are some must haves every time I fly? What other types of devices could help me in an emergency? What types of medical equipment should I consider?

Presented by Sgt. Wyatt Weber

Biography: Sgt. Wyatt Weber started with the Highway Patrol 19 years ago. After two years, he tested for and made the SERT team which is a tactical team tasked with responding around the state to major incidents. On that team, he specialized in shield operations, less lethal munitions, and certified as a sniper. For 8 years, he was the team leader of that team. Sgt. Weber also assists the training section of the Highway Patrol and police academy teaching firearms, building clearing, active shooter response, and various leadership courses. For 8 years Weber had worked on the Utah DPS Aero Bureau. The Bureau flies over 300 missions a year in Airbus H125 helicopters. The missions include things like lost hikers, fallen climbers, missing ATV's, flash floods, fires, downed aircraft all on top of police missions like pursuits and surveillance.

Event Details

Tue, Sep 21, 2021 - 18:00 MDT
Ogden Airport Terminal Building
3909 Airport Rd
Ogden, UT 84405

Contact: REX SHOELL
(801) 436-7206
rexfaaast@gmail.com

Select #: NM07106477
Representative REX ALAN SHOELL

Having responded to hundreds of incidents the lessons learned from each make him uniquely paranoid and barely qualified.

Directions: Please park in the numbered stalls (no payment required unless parking overnight). Walk West past the roundabout, enter through the glass doors facing East and follow signs.

Free tie down spots are available if you want to fly into the event. Please contact the Ogden Airport Office to make arrangements 801-629-8262
